

Service remote control for Tokheim fuel pumps

LSP-TRC

Brief description

This dedicated Tokheim service remote control is designed for fuel service companies. It is capable of all the functions for which the original remote control is available. The product is only compatible with pumps with Tokheim branded main boards.

Fuel pump types that can be controlled

Our Tokheim service remote control is compatible with any pump manufactured by Tokheim WWC. Here are some examples you can use with in that case if they are equipped with WWC calculators:

- Quantum 100/200 T
- Quantum 100/200 T1
- Quantum 110/210
- Quantum 300 T
- Quantum 300 T1
- Quantum 310
- Quantum 400 T
- Quantum 410
- Quantum 500 T1
- Quantum 510
- Quantum LPG
- Quantum AdBlue

This list is not complete. Ask if it is compatible with yours!

Features

- High power infrared (up to 4 m working distance)
- Dedicated for Tokheim pumps
- Durable case
- Battery saver function
- Indication LED
- AA batteries

Buttons

This remote control works exactly as the original remote controls for the fuel dispensers. The sticker on the remote helps to identify the keys and you can use the documentation of the dispenser to learn how to configure the pump. This device recommended for fuel station / gas station service companies. It is powered by 2 AA batteries. Therefore they are easy to replace and lasts for a very long time thanks to the battery-saving function.

- keys **0-9** correspond to the original remote control
- key ***** corresponds to key **ON**
- key **#** corresponds to key **OFF**
